The Overwhelm is Real

Europeans are often lauded for having automatic visits at home for moms and babies in the comfort of their own homes.

These early days in your baby's life are uniquely stressful. Nothing is every quite like it again! Your body is recovering, baby is adjusting, and there are so many questions!

Our Services

After arranging a day and time that works for you and your family once you have delivered, Dr. Langley will come by with all the supplies she needs for:

Maternal care:

- IBCLC lactation assessment
- Vitals and brief physical
- Postpartum depression and anxiety screen
- Discussions of delivery complications, other concerns

Neonatal care:

- Vitals and weight check
- Bilirubin screen (skin check)
- Heart defect screening with pulse ox
- Heel stick for newborn screen

Dr. Langley limits how many births she will accept every month, so sign up as soon as you can to reserve your slot.
