Our Location

15455 Gleneagle Dr, Suite 112  
Colorado Springs CO 80921

“

This is how every medical practice should operate. No unnecessary paperwork, no waiting on a phone line, affordable, and most importantly, we have a real relationship with our doctor. We can email with any questions and we have saved trips to Urgent Care because we were able to text our doctor after hours. We have done blood work in the office, followed by results from the doctor next day. Amazing service but exactly how it should be everywhere. Our lives are better and we have less worry thanks to Dr. Langley.

- K.L. (Google Review)

Ages 40-64 - \$85/mo  
Ages 65-99 \$99/mo

First child: \$39/mo,  
\$20/mo for all additional

One-time \$100 enrollment  
fee per household

Homestead Direct Primary Care

## You deserve no-hassle healthcare

Having health insurance isn't the same as having a doctor. Our clinic works outside of the restrictive insurance-driven system, so that your doctor works only for you. With an affordable monthly membership fee, you can finally have a relationship with a doctor you trust.

Be heard

# This doctor has time to see you

A typical primary care practice has thousands of patients per provider. Ours will max out at 600. A typical doctor spends 10 minutes with you, we reserve 30-60 min for each appointment.

Many of our patients have health insurance, but it is best used like car insurance - save it for the big accidents and surgeries. A skilled family physician like Dr. Langley can address 85-90% of your health concerns, and save you time and headaches going to other offices, labs, and pharmacies. The last thing you want to do when you're sick is wait in line for your antibiotics, so we have some for you right in the clinic!

This style of healthcare feels a lot like the old-fashioned country doctor who would never limit you in how many concerns you could bring up at a visit. From putting you at ease during a personal exam, to knowing how to talk to your kids, your experience with your doctor is important.

Plus, when you have a doctor working directly for you, you'll be surprised at all the ways we can help you to save money.

# Meet Our Doctor

Dr. Rachel K Langley, DO, completed her undergraduate degree in molecular biology at CU Boulder. She attended Kansas City University of Medicine and Biosciences, and then became board certified in family medicine through the program at Nellis AFB.

After providing great care for pilots and aircrew in Active Duty Air Force for 12 years, she is ready to provide that same level of comprehensive care in her own clinic. She resides in Black Forest with her husband, their 5 kids, and jersey cow, Poppy Pumpkin.

## What We Can Do
